Certificate of achieving 3rd place in Patch Frenzy(debugging) at TechnoVVISTA 2.0 organized by Vidya Vikas Institute of Engineering and Technology, Mysuru.

Projects

LocalPulse – Smart Local Event Discovery Platform

Developed LocalPulse, an AI-powered Progressive Web Application (PWA) designed to centralize local event discovery and management. Built using Next.js, React.js, Node.js, MySQL, and cloud services, the platform enables users to search, filter, register, and receive recommendations for events based on interests and location.

2.Spellbound Speculum - The project "Spellbound Speculum" delves into the innovative realm of magic mirrors, aiming to revolutionize the way users interact with digital information. This project focuses on creating an interactive, aesthetically pleasing, and highly functional smart mirror that serves as a seamless blend of technology and everyday utility.
