Tumakuru, Karnataka, India | +91 97319 14376 | akshaysarun30@gmail.com | [linkedin.com/in/akshaysarun](https://www.linkedin.com/in/akshaysarun)

PROFESSIONAL SUMMARY

Master of Computer Applications graduate with hands-on experience in **object-oriented programming (Java, Python)**, **data structures and algorithms**, and full-stack software engineering. Built and shipped multiple end-to-end applications spanning **Next.js/React**, **Node.js**, **Flask**, and **MySQL**, applying sound engineering principles to translate stakeholder requirements into working features. Quick to learn new tools and frameworks, and comfortable owning a problem from design through deployment in a cooperative team environment.

SKILLS

- **Programming Languages:** Java, Python, C
- **CS Fundamentals:** Data Structures & Algorithms, Object-Oriented Programming, SDLC
- **Web Development:** Next.js, React.js, Node.js, Flask, HTML/CSS/JavaScript, Bootstrap
- **Databases & Backend Services:** MySQL
- **Tools:** Git, MS Office, Canva, Android Studio

INTERNSHIP

Python & Full Stack Development Intern | Mindset | Feb – May 2026

- Completed a 4-month industry internship focused on Python and Full-Stack Development.
- Developed responsive web applications using frontend and backend technologies with database integration.
- Applied object-oriented programming, debugging, and SDLC best practices while working on practical assignments.
- Strengthened problem-solving, collaboration, and software development skills.

PROJECTS

LocalPulse — Smart Local Event Discovery Platform | Personal Project | 2025

- Architected and developed an AI-powered Progressive Web App (PWA) using **Next.js**, **React.js**, **Node.js**, and **MySQL**, enabling users to search, filter, and register for local events.
- Implemented a recommendation feature that surfaces events based on user interests and location, applying engineering principles to balance relevance with performance.
- Integrated cloud services for data storage and delivery, focusing on reliability and responsiveness across devices.

Spellbound Speculum — Smart Mirror | Academic Project | 2024

- Designed and built an interactive smart mirror system that overlays digital information (time, weather, notifications) on a reflective display, blending hardware and software.
- Applied an iterative, feedback-driven build process — testing interactions and refining the UI for everyday usability.

EDUCATION

Master of Computer Applications (MCA) | Vidya Vikas Institute of Engineering and Technology (VTU), Mysuru | Expected 2026

- CGPA: 8.24

Bachelor of Computer Applications (BCA) | Seshadripuram College (Tumkur University), Tumakuru | 2024

- CGPA: 8.22

CERTIFICATIONS & ACHIEVEMENTS

- NPTEL Certification in **Advanced Graph Theory**
- VTU Online Certification In Reinforcement Learning
- 2nd Place, Project Presentation — National-level Faculty Development Program on Computer Multimedia and Animation using Block Coding
- 3rd Place, Patch Frenzy (Debugging) — TechnoVVISTA 2.0, VVIET Mysuru
